Experimental Call Sign KI2XEE, an authorization permitting broadband maritime experimental operations through the use of up to 45 Digital Shipboard Earth Stations.¹

2. An application proposing assignment of Call Sign KI2XEE from HTG to Maritime Telecommunications Network, Inc. ("MTN") is under preparation and shall shortly be filed at the Commission. Upon its grant, HTG shall be dissolved. In light of this, HTG's continued prosecution of a Request For Pioneer's Preference is no longer warranted.

3. A more complete statement relating to MTN's succession to the interests of both HTG and Crescomm is set forth in MTN's "Motion For Leave to Succeed Crescomm Transmission Services, Inc. as Petitioner-Of-Record in Docket No. RM-7912", being filed contemporaneously with this Motion.

4. A grant of this Motion to voluntarily dismiss HTG's Request For Pioneer's Preference will streamline the record, and make it reflective of recent commercial transactions which have resulted in MTN succeeding to the interests of both HTG and Crescomm. Accordingly, the grant of this Motion is in the public interest.

¹ HTG became licensee of Call Sign KI2XEE on November 9, 1994, after being assigned the license from Crescomm Transmission Services, Inc. ("Crescomm") the original petitioner in this rulemaking docket. Crescomm continued, however, to retain ownership of the physical plant used by HTG, which entered into an exclusive operating agreement with Crescomm.

WHEREFORE, in view of the foregoing, it is respectfully requested that the Commission grant the instant motion for voluntary dismissal of the Holmdel Telecommunications Group, Inc. Request For Pioneer's Preference, as filed on December 8, 1994.

Respectfully Submitted,

HOLMDEL TELECOMMUNICATIONS GROUP, INC.
